Application for Backend Developer

Dear Sir/Mah

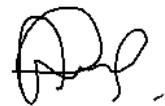

As a highly motivated and dedicated student with strong interpersonal and team work skills, I would like to apply for Web Development Category

As a student I have been extensively involved in my school community, which has allowed me to develop strong interpersonal skills. My involvement in various events, including Developer Student Club, Ingressive campus ambassador, Microsoft student partner and some volunteering club, has allowed me to work closely with my peers while supporting the school community as a whole.

These experiences have allowed me to develop strong time management and organisational skills, which I see as being very important when seeking to work in casual employment while continuing to study.

Thanking you in advance for your time,

Aminu Muhammed
